CLINICAL SOCIOLOGY REVIEW

Volume 6, 1988

The Clinical Sociology Review is published annually by the Michigan State University Press, in association with the Sociological Practice Association: A Professional Organization of Clinical and Applied Sociologists.

The Clinical Sociology Review publishes articles, essays, and research reports concerned with clinical uses of sociological theory, findings or methods, which demonstrate how clinical practice at the individual, small group, large organization or social system level contributes to the development of theory, or how theory may be used to bring about change. Articles in the *Review* are generally expected to be relevant to intervention at some level. Articles may also be oriented to the teaching of clinical sociology. Manuscripts will be reviewed both for merit and for relevance to the special interests of the *Review*.

Manuscript submissions should follow the American Sociological Association style guidelines, including reference citation style, and should include an abstract. There is a \$10.00 processing fee which is waived for members of the Sociological Practice Association. Send four copies of the manuscript to: David J. Kallen, Editor, *The Clinical Sociology Review*, Department of Pediatrics/Human Development, Michigan State University, East Lansing, MI 48824; (517) 353-0709. When possible, final copies of accepted manuscripts should be sent on a 5 1/4 inch IBM compatible computer disk.

Books for consideration for review in the *Clinical Sociology Review* should be sent directly to the book review editor, Howard Rebach, 225 West College Avenue, Salisbury, MD 21801.

Subscription inquiries should be sent to the publisher: The Michigan State University Press, 25 Manly Miles Building, Michigan State University, East Lansing, Michigan 48824.

Membership and other inquiries about the Sociological Practice Association should be sent directly to Dr. Elizabeth Clark, President, SPA, RD2 Box, 141A, Chester, New York 10918.
